“Success comes to those who works hard and stays with those, who don’t rest on the laurels of the past.” Today we live in a world where change is riding accelerated pace and we need to pause and reflect on the entire education system. I firmly believe that students must be taught how to think not what to think. That reminds me of the great words of wisdom by Aristotle, “Educating the mind without educating the heart is no education at all.

At Chavara English Medium School we impart education to match the advancement of technology with the ethos of moral and ethical principles. The school magazine is a mirror reflecting the creativity of young minds of the school. I extend my warm wishes to the staff and students to continue this journey on the road of excellence with the motto “Learn, Live, Lead.” Wishing you the best for scaling bigger success and achieving newer heights in the coming days.

“You must discover what you are made for and you must work indefatigably to achieve excellence in your field of endeavour.” We Chavarites believe that all the individuals have the capacity to improve and learn. All people develop at different rates and have expertise in a wide range of subject areas with unique learning styles. Assessment of this learning takes a variety of forms. We trigger their curiosity and encourage them to step into unfamiliar grounds without fear. I hope that the magazine will showcase some of the best creative endeavours of the students and promote the feeling of nationalism and integration. My best wishes for the entire endeavour.
